Cindy was extremely professional and got our home sold very quickly. As this was my parents house for 47 years, she was kind and sensitive to their needs and concerns. The statement that my husband and I were recently able to sell my home in Braintree at a highly attractive price is a true. But it is not the whole truth. We could not have sold the house at the price we wanted and in a remarkable short time without the invaluable and professional skills and efforts of our real estate broker, Cindy Dunn. **Cindy did her homework, and evaluated the market** for the kind of ranch we owned, a 4100 square foot California ranch, Cindy did not stop there. Cindy made excellent suggestions as to what we might do to make the home more attractive, she enlisted a professional photographer to present the house in the most favorable light possible. Our listing was so attractive that our first open house was the only open house we needed. Within 48 hours, my husband and I received and accepted an offer we could have only hoped for. I cannot overstate my gratitude to have had Cindy Dunn as my broker. If you are thinking about selling your home, I strongly recommend that you consider Cindy Dunn. You will not regret it.
